

Vancouver Centre for Periodontal and Implant Surgery

1720-1111 West Georgia Street. Vancouver, BC. V6E 4M3

As before, the team at GRAFT Periodontics is committed to ensuring the safety of our patients and staff. While many of the recommended measures to limit the spread of COVID-19 are standard within our office, we have made some adaptations for the new COVID-19 environment.

- All staff and guests are expected to wear a mask when entering the office.
- A clear barrier has been installed at our reception desk.
- Staff and patients are screened for symptoms on a daily basis.
- Wearing masks is required within our building.
- Hand sanitizers and tissues are readily available.
- Patient intake forms are emailed prior to appointment for digital information collection.
- Patients are encouraged to arrive for appointments alone.
- Markers have been placed on the floor to indicate safe spacing between visitors.
- Payments are accepted through contactless methods: by phone and tap.
- Common contact points are frequently cleaned and disinfected.
- Each private treatment room has an air purifier with HEPA, carbon & UV filters.
- Buffer time is planned between appointments.
- Staff have been supplied with the appropriate personal protective equipment (PPE).
